

Welcome from Dr Khalifa Rajab Abdulsadek, MOSL CEO

Launched in September 2021, Murzuq Oil Services Ltd (MOSL) is a business services company, incorporated in the UK by the National Oil Corporation of Libya, focussed on driving value for Libya's energy businesses.

Providing industry expertise and experience, MOSL supports the NOC and its affiliates to improve their business processes and corporate performance, offering a complete range of consultancy services. Collaborating with UK companies, including leading international engineering, procurement and construction contractors, we will deliver programmes across the whole project lifecycle initially focussing on Libya. MOSL as an excellent opportunity to collaborate with UK, European and North American companies, providing us with robust solutions to future proof our business.

MOSL will support the NOC and its affiliates in providing training and development for their personnel.

In today's ever-changing world, we never stop learning. New, higher standards and best practices continue to be introduced; redefining our industry which in turn shapes the way that we do business. Whether in our professional or our personal lives, the need for continuous training has never been more important. I am, therefore, proud to have launched the Murzuq Training and Development offering. Designed to offer world-class training for both the next generation of oil and gas professionals and experienced individuals, the Training and Development offering will support all employees. From refining their skills and upgrading knowledge to nurturing new talent as we embrace future opportunities.

The NOC has ambitious targets of expanding its oil production capacity beyond 2Mboepd and MOSL will assist it in this aim. Based in London, MOSL is NOC's international 'arm'; a hub for UK talent and technologies which will support NOC and MOSL's ambitious growth plans. Including plans for development of Libyan onshore and offshore oil and gas facilities and future plans for renewable energies, focusing closely on meeting carbon reduction targets.

I am proud to have the opportunity to lead MOSL and look forward to meeting you.

“ We will deliver programmes across the whole project lifecycle initially focussing on Libya. ”

About us

Murzuq Oil Services Ltd (MOSL) is an oil and gas service company, wholly owned by Libya's National Oil Corporation (NOC).

Registered in the UK, our head office is in London with a subsidiary office in Tunis. We create value for petroleum and natural gas extraction businesses, providing a hub for engineering and consulting companies, supporting the NOC and its affiliates with development of world-class technologies, training and development.

MOSL works to support our clients and improve their business processes and corporate performance. Using virtual support MOSL will add value to our clients' projects while saving on unnecessary travel, logistics, and paperwork.

Through years of experience and knowledge, we continue to establish strategic partnerships with leading oil and gas sector manufacturers and services providers, facilitating collaboration between NOC Libya and UK-based oil and gas companies and service providers.

Our purpose is to enable the NOC and its affiliates meet their ambitious growth plans. Initially focused on our Libyan clients, our longer-term vision is to offer services to customers globally.

Our Purpose, Mission and Vision

PURPOSE

Murzuq Oil Services Ltd (MOSL) **purpose** is to advise and support the NOC and its affiliates in their mission to develop Libya's energy assets for the advancement of Libya and its citizens. Working on significant future investment with mergers and acquisitions, supporting the NOC in their ambition to become one of the world's leading integrated international energy companies.

MISSION

Our **mission** is to assist and enhance efforts to develop Libya's resources/ reserves to maximise their value, safely and profitably. Working as trusted advisor, MOSL will support planning and projects, leading efforts to increase Libya's oil and gas production to significantly higher levels ensuring maximum recovery.

VISION

MOSL's **vision** is to create value for the NOC and its affiliates evolving Libyan energy resources. We provide expert technical and business advisory services, supporting NOC and its affiliates to become one of the world's leading Integrated International energy companies. MOSL provides high value to the NOC, and Libya, through the increased provision of high quality services, sound professional advice and training Libyan national personnel.

Our Services

With more than 500 years' joint experience, our team offers consultancy support to our affiliates.

Working together we offer expertise in design, build and maintenance of assets that power the world for today and make it future-ready for tomorrow.

From consulting to design, build, commissioning and startup through to maintenance and operation, MOSL's ambition is to become a global leader in integrated energy services.

Engineering and Consultancy

Our clients want solutions that create and sustain value. Combining experience, expertise and innovation at every project stage. Our expertise supports both green field and brown field opportunities and addresses all elements of the engineering value chain. From the earliest of concept, through pre-FEED and FEED into detailed engineering execution, operational readiness engineering and optimisation and enhancement.

Complementing our core engineering delivery capability, our work includes design assurance services. We work alongside clients to discover, prevent and correct errors early in both the concept and design process to save on time and cost – offering our clients complete reassurance.

Our experience and capabilities bridge the upstream, midstream and downstream oil and gas markets as well as serving the process and refining sectors.

We tackle the complex technical challenges head on to develop answers that can be implemented safely and cost competitively.

Project Management Consultancy

We support our clients through the entire project lifecycle. We start by defining your project needs and establishing your options. We know the key driver of success is getting the right team in place to provide the experience and expertise needed. Working side by side with our clients, we support managing delivery through to start-up and operations to ensure every project is delivered safely and successfully.

Alternatively, we can consult as part of an integrated project team (IPMT) which may include Client/Owner, JV partners and consortium partners combined with execution of conceptual design, FEED and support to detailed design engineer and delivery.

Our Services

Supply Chain Services

MOSL offers expert advice for supply chain and procurement. The provision, on a disclosed agency basis, of procurement and inspection services for materials from around the world, as well as a supporting Engineering Procurement and Construction (EPC)/Invitation To Tender (ITT).

Leveraging international procurement expertise, market knowledge and global supply chain networks, we provide the best value for clients' capital investments. Our procurement organisation manages a multimillion dollar spend in equipment, materials and services through strategic sourcing, material management, contract management and logistics functions.

Our advanced sourcing methods, market intelligence and global purchasing volume enable the company to drive cost and schedule certainty for clients' capital projects. MOSL works with clients to support operations and maintenance services, using the latest digital technologies and best practices to extend the project lifecycle while reducing risk and cost.

We work with our clients on an integrated partner approach to continuously improve efficiency, ensure a culture of safety and drive out cost.
